

Rapid Access Syncope Service

Dear Colleague,

The Rapid Access Syncope Service and King Edward VII recently celebrated its first anniversary. It therefore seems appropriate to inform practices of its continued success.

The aim is to provide a seamless service for patients with syncope or near syncope with accurate diagnoses with the help of expertise and new technology. Physicians provide this service jointly with special interests in syncope, cardiology, and neurology.

Summary of the service

The service is held at KEVII once a week on Thursday mornings. In addition to clinical assessment, facilities are available for:

- ECG, Echocardiography
 - Prolonged ECG/ Ambulatory blood pressure monitoring
 - Tilt testing
-

Referrals

You can refer to our Rapid Access Syncope Service via Choose and Book or referral letters can be faxed on 01753 849206.
