CONNECTED CARE

Shared Care Record

The Connected Care Shared Care Record provides important information about a person in one central place, drawing information from local systems of a growing number of care settings across Berkshire West and Frimley ICS including Primary Care, Secondary Care, Social Care, Community and Mental Health.

The Shared Care Record can be accessed directly from EMIS.

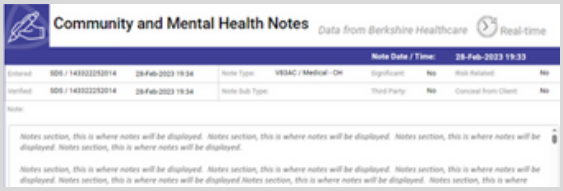
From a patient record in EMIS go to the View ->My Record pane and click on Graphnet Portal to open the Shared Care Record.

(The Shared Care Record is hosted by Graphnet Health Ltd)

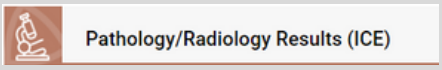
Some Recent Additions to the Shared Care Record

The Shared Care Record has Community and Mental Health information for patients under the care of Berkshire Healthcare, Surrey & Borders Partnership and HCRG, including Referrals, Diagnoses and Appointments.

Notes, Health Checks and Communication preferences from Berkshire Healthcare are also available



RESULTS



Connected Care contains a link to ICE allowing you to view Requests and Results across Berkshire, Frimley and Surrey.

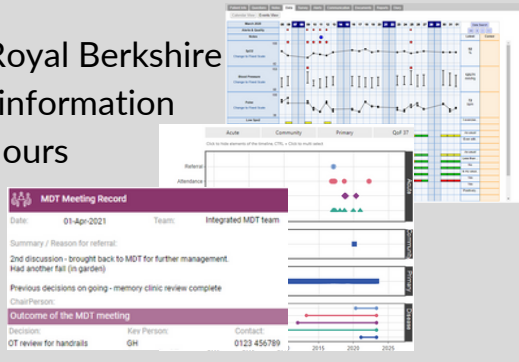
SOCIAL CARE

Bracknell, Reading, Slough, West Berkshire Windsor & Maidenhead and Wokingham Councils share Adults Social Care Referrals, Disabilities, Care Plans & Carer details.

Slough and Windsor & Maidenhead also share Children Social Care details including Safeguarding and Alerts.

And some more examples..

- Real time ED, Inpatient and Outpatients from Frimley Health and Royal Berkshire
- If your patient is on Remote Monitoring you can see their entered information
- Notes and Medications from East Berkshire Primary Care Out of Hours
- Timeline View shows a snapshot of interactions across the system
- Integrated decisions recorded *(by some)* MDTs are available



For more information, contact us at: frimleyicb.connectedcare@nhs.net
